DUNCAN WHITAKER
Fine Art Photography

Sand Forest, Pemaquid, Maine

The images in this brochure are a sample of a substantial portfolio of works entitled DOWN EAST. These images capture the essence of Maine and Nova Scotia with simplicity and clarity, be it the coastal waters, harbors, working boats or fishing gear. They offer the viewer a fresh and different way of seeing the familiar.

His photographs present the particular scene as it was composed and captured when the shutter was released, without digital alteration of the final image. Archival materials are used in all phases of the printing, mounting and framing of the images.
